

DIGITAL CONNECTIVITY

There are a range of ultra-fast flexible connectivity options available within Landmark. Telkom, Openreach and Colt fibre have been pre-installed and are available for occupiers to take up the building risers to their individual floors.

Telcom also have a variety of existing partnerships with Openreach, SSE, TalkTalk and Virgin Media Business which gives occupiers access to a UK wide network, whilst regional relationships with partners such as CityFibre, The Loop and Telcom Infrastructure provide the option of a local presence.

In addition, there are various other internet service providers in the vicinity offering further choice.

Cable routes through the building have been defined and a standard Wayleave template is in place.

WiFi is available free of charge to all occupiers and visitors in the communal areas, including the basement levels.

Landmark is WiredScore Platinum Certified. As part of this accreditation, the team at WiredScore offer a free consultation service to assist you with your initial connectivity requirements. Please contact Tom Vaughan-Fowler for further information;

Head of National Markets
